

CWR-3000

Long-acting Crystal Coated Film

PDS

Description

CWR-3000 is a reactive silicone crystal coated film applied on the sheet metal of vehicles, which can form a strong hydrophobic, shine and dust-proof film on the surface. The film also makes the sheet metal more color deep.

CWR-3000 can combine with other auxiliary agents.

Characteristics

- Excellent shine and color deep
- Excellent surface hydrophobic
- Won't cause oil-bloom
- Good compatibility with water
- Good lubricity

Properties

Appearance	Hazy yellowish liquid
Main Substance	Silicone crystal coated film
pH(5%Solution,25°C)	6.0±1.0
Ionic type	Cationic
Diluent	Water

Safety

This document does not contain the safety information required for the product. Please read the safety data sheet for this product before use.

Storage & packaging

When stored in its originally sealed packaging at 5°C - 40°C, this product may be stored for up to 8 months from its manufacturing date. Comply with the storage instructions marked on the packaging. Once past this expiration date, TAI COUNTY CHEMICAL no longer guarantees that the product meets the sales specifications.

Product comes in **20KG HDPE grey drums (Breathable)**. If it freezes, the best action is to thaw it gradually at room temperature. Do not heat it directly.

Applications

- Water repellent agent for car sheet metals
- Surface treatment agent
- Water repellent agent for helmet visor
- Water repellent agent for car headlights
- Water repellent agent for solar panel

Processing

- Application

Dilute CWR-3000 to 20~30 times then use. (Depending on the actual conditions, you can adjust the usage amount.)

The data provided above is to the best of our knowledge and experience and is without any warranty. Users should thoroughly test any application and independently conclude satisfactory performance before use.
