

# Hyper SS

Moisture Absorbing and Quick Drying Softener

## PDS

## Description

The constituents of Hyper SS is comparable to natural molecules, alkali resistance, and environmentally friendly characteristics. Hyper SS has excellent water wicking ability in which the water swiftly spreads and evaporates quickly after absorption.

## Characteristics

- Provides fabric a hydrophilicity, alkali resistance and acid resistance properties with environmental safety.
- Increases fabric heavy, bounce, and soothing properties
- Excellent fiber penetration
- Low in color deviation

## Properties

Appearance	Amber transparent liquid
Active ingredient(%)	50.0%
pH(5%Solution,25°C)	7.0±1.0
Ionic type	Slightly Anionic
Diluent	Water

## Safety

This document does not contain the safety information required for the product. Please read the safety data sheet for this product before use.

## Storage & packaging

When stored in its originally sealed packaging at 5°C - 40°C, this product may be stored for up to 8 months from its manufacturing date. Comply with the storage instructions marked on the packaging. Once past this expiration date, TAI COUNTY CHEMICAL no longer guarantees that the product meets the sales specifications. Product comes in 120kg HDPE blue drums.

## Applications

- Can be added to dye baths, santer or extortion method for textile finishing
- Temperature can hold up to 130°C with high shear stability

## Processing

- Padding process

Hyper SS :5~10 g/L  
Soaking temperature :Room temperature  
Setting temperature :150°C/2.5mins  
(Depending on the actual conditions, you can adjust the usage amount.)

**Please test with the own condition before use!**

The data provided above is to the best of our knowledge and experience and is without any warranty. Users should thoroughly test any application and independently conclude satisfactory performance before use.
